

GOVERNMENT  
MAY CONCEDEDemands of Striking Work-  
ingmen in Russia.

## THE DISAFFECTION GROWS

Proposed Demonstration Before the  
Czar's Winter Palace Tomorrow Is  
Waited With Bated Breath as  
It Means Much.

St. Petersburg, Jan. 21.—There was no material change in the strike situation this morning. The movement continues to spread in all directions and it is estimated that fully 150,000 workmen have now quit work in various towns. Government officials profess no alarm regarding tomorrow's proposed demonstration before the winter palace. But despite these professions of security it can be said with authority that everywhere the occurrence is waited with bated breath. There is not the slightest question that the demonstration may prove the end of the industrial crisis, or equally as readily, the beginning of a revolution which will shake Russia to her foundations. Should a collision occur between the strikers and the military forces the result would be nothing less than a wholesale massacre before the very eyes of the czar.

The strikers assembled in the streets early this morning. They are marching about quietly, and delegations are visiting various factories and persuading the employees to quit work.

## Strikers Would Guard Czar.

The strikers have notified the government that they have selected a corps of 400 picked men who will act as a body guard to the czar in the event of his agreeing to confer with them. The leaders of this body guard have sworn to sacrifice their lives for the czar in the fulfillment of their guarding his safety. Should he consent to the conference they will surround him completely and prevent anyone of a Nihilistic frame of mind getting anywhere near his majesty's person.

## Extra Guard for Palace.

Considerable anxiety is felt regarding the attitude of the railway and telegraph employees, whose adhesion to the strike would disorganize the whole country. None of the printers have returned to work and as a result St. Petersburg is today without a newspaper. A regiment of Uhlans was today drafted into the winter palace for the further protection of the czar, and several guns are being prepared for mounting in the palace courtyard. Hundreds of students are today joining the ranks of the strikers.

The opinion this afternoon is rapidly growing that the government will be compelled to concede the demands of the strikers.

## RESIST THE STRIKERS?

ment Will Not Concede.

## IN FAVOR OF PLAINTIFF.

Ruling Made by Which Case of Wilson  
vs. Clement Will Be Tried Again.

Northfield, Jan. 21.—The famous slander suit of Samuel D. Wilson vs. Percival W. Clement will probably be tried in this city again at the February term of United States court, a decision having been received yesterday by Attorney M. L. Powell to the effect that the writ of error which was taken before the circuit court of appeals in New York has been dismissed.

This writ of error was based on the claim that Judge H. H. Wheeler had gone contrary to law when he granted a new trial in the case after a verdict had been returned by a jury for the plaintiff. The new trial was ordered on the ground that some of the jurors were disqualified. The case was argued in New York over a month ago by Michael H. Cardozo for Mr. Clement and Mr. Powell for Mr. Wilson. Since that time the court has had the matter under consideration.

This case grew out of the campaign for the governorship conducted by Mr. Clement two years ago. The plaintiff alleges that Mr. Clement called him a murderer and seeks to recover damages of \$50,000. The case was first tried in Rutland at a session of the United States court. In speaking of the case yesterday Mr. Powell said the case undoubtedly be tried here in February.

## RUTLAND MARBLE NOT USED.

Rutland People Contributed for New De-  
pot and Are Turned Down Badly.

Rutland, Jan. 21.—A somewhat complex situation has arisen at the new railroad station in connection with the interior work of the main waiting room, which is being paid for in part by the local citizens who contributed a sum of money sufficient to allow, as they supposed, the use of Rutland marble for a part at least of the decorative work. Instead of this a contract was awarded to an Albany concern for the putting in of terrazzo flooring and wainscoting. The terrazzo work is composed of cement and marble chips and many of the chips will even come from Italy.

The Albany contractor has been here for several days ready to begin work, but it is stated that the contractor, who is building the depot is dissatisfied with the change made in the original contract as a result of the change in interior arrangements and is therefore holding up the work. It is stated that the Columbian Marble company's bid for furnishing marble tile and wainscoting was less than the terrazzo work will cost.

Much disappointment is felt by Rutland citizens that there will be nothing in the interior work to show the traveler that marble is our chief industry.

## OPPOSED TO HANGING.

Vermont Spiritualists to Petition Gov.  
Bell to Reprive Mary M. Rogers.

Montpelier, Jan. 21.—At the meeting of the State Spiritualist association in Grand Army hall yesterday afternoon a committee was appointed to draw up a petition to Governor Bell, asking him to reprove Mary M. Rogers. Mrs. Janus Crockett of Duxbury spoke of several experiences and told of receiving a letter from Mrs. Sarah A. Wiley of Rockingham, one of the speakers advertised to be present at this convention but who is too ill to attend, urging Mrs. Crockett to ask the convention to do all in its power to secure a reprieve of the death sentence of Mrs. Mary Rogers.

President Hubbard said there is no call for hanging people in this twentieth century and we recognize the fact that no good can come out of choking Mary Rogers to death. It is the duty of every member of this convention to work with all their powers for something better than capital punishment.

Dr. S. N. Gould of Randolph moved that the chair be instructed to appoint a committee of three to draft a petition to be presented to Governor Bell, praying him to reprove Mrs. Rogers' sentence, this petition to be an official document from the State Spiritualist association, and signed by its members.

The motion prevailed and the chair appointed as such committee Dr. S. N. Gould of Randolph, Mrs. Janus Crockett of Duxbury and Mrs. Alma Leonard of East Calais.

A. F. Hubbard opened the conference this morning at ten o'clock, then followed personal experiences and the address of the president, Mrs. Don H. Chapman, formerly Effie I. Webster, spoke this afternoon. It is likely that the election of officers will not be reached until this evening.

A death watch is now stationed in front of her cell and will guard her from now until the day of the execution.

Mrs. Rogers has grown a shaven pate and realizes more keenly than ever her impending fate.

She has not selected a clergyman to accompany her to the gallows but will do so within a few days.

## HAD GENERAL GOOD TIME.

Epworth League of Methodist Church  
Gave a Fine Sociable.

The vestry of the Methodist church was filled with an appreciative audience last evening at the entertainment given by the Epworth league. Piano solos were given by Miss Wilson and Miss Batchelder; Miss Allie Trow gave a much applauded reading and Messrs. Oliver and Veale did themselves credit by a vocal selection. Then followed the best part of the entertainment, called the "Magic Mirror." Miss Ban as the witch showed the pictures of twelve pretty maids from whom a distracted young man (Dan J. Morse) was to choose a wife. He chooses one who seems to suit his fancy and carries her away. Then a period of twenty years passes and he again stands before the mirror. He chooses this time a comely little housekeeper who knows how to cook and make his home comfortable. The role of Mrs. Fred Page as the maiden of forty summers was especially laughable, while Miss Whitcomb, the reader, should receive great credit for the pleasing manner in which she read the thoughts of the witch.

After this the company adjourned to the basement, where they popped corn, roasted apples, and had a general good time. The committee in charge was Mr. and Mrs. D. J. Morse, Messrs. Mac Smith and Beattie Whitcomb, and William Oliver.

BARRE NEEDS  
ATTENTIONSays Dr. D. D. Grout of State  
Tuberculosis Commission.

## TO CRUSH OUT DISEASE

In Communication to The Times Dr.  
Grout Tells Some Facts That Re-  
veal Necessity for Edu-  
cational Work.

The following communication from Dr. Don D. Grout of Waterbury, president of the Vermont State Tuberculosis Commission, is of very great interest to the people of Barre. It also states the position of the Commission relative to the campaign against tuberculosis which is now being conducted in Vermont.

Waterbury, Jan. 18, 1905.

Mr. Editor—Sir:

My attention has been called to an article in a recent number of The Times, regarding tuberculosis in Barre, prompted by a statement made to the city council by Health Officer Dr. Joe W. Jackson. The doctor's statement was correct and timely, and shows that in his official capacity he is observing not only the letter, but the spirit of the law. More health officers of this kind are needed in Vermont. The editorial remarks thereon show that the editor is made of the same material, and is actuated by the same spirit. The article referred to says "that the State Board of Health has taken up the work and from now on promises to spread the gospel by means of public lectures, etc." While it is the duty of the said board to consider this matter in a general way, it is the special work of the State Tuberculosis Commission to spread the gospel "by means of public meetings, held, one at least, or more, in every county in the state each year; by public lectures on this subject by different members of the Commission; by distribution among the people of pamphlets, documents and circulars upon this subject; by articles in the public press, etc." (part of Sec. 3 of the act under which the Commission was established). That the work might be expedited, and that these meetings might be held where most desired, a circular was sent to most of the newspapers in the state a few weeks ago with the intention of calling the attention of the people to the work of the Commission, and the fact was announced that such meetings would be held in any town or city that expressed a wish for one, on conditions that such town or city should provide a suitable place for the meeting and make an effort to get out a respectable audience. A copy of the circular was sent to The Times. The Commission will be pleased to hold such a meeting in Barre some time during the month of February, if the people there will express such a wish to Health Officer Jackson.

Meetings have been arranged to be held at Vergennes, Jan. 24, Waitsfield, Jan. 27, Stowe, Feb. 1, Cambridge, Feb. 3, and Bradford about Feb. 7.

That there is need of missionary work of this kind being done in Barre is self evident. In the state at large, during 1903, there were 1,28 deaths per thousand of the population, from tuberculosis (this was about 14 per cent smaller than any former year); in Barre during 1904 the proportion was nearly twice as large. This is partially accounted for from the fact that so large a proportion of the population are stone cutters. According to the last United States census reports the death rate from tuberculosis among stone cutters headed the list of fifty-three occupations given.

The death rate in Barre from this cause will continue to increase unless great efforts are put forth and radical changes are made in the methods of carrying on the work in the stone sheds.

It is a fact that has been demonstrated many times that each case of consumption infects one or more people. Consequently if the stone-sheds continue to produce their usual number of victims, and each one infects some member of his household, and in time this one leaves one or more victims, it is very evident what the result will be in time. This can and should be checked, for tuberculosis is not, as was believed a few years ago, a mysterious and inevitable fate.

DON D. GROUT.
